# BIKING IN THE AIRPORT CORRIDOR — RIDE ON!

Did you know? There's a biking superhighway—the Montour Trail—that runs right through Pittsburgh's western suburbs. There's even an off-shoot trail that connects to the airport!

ACTA's **Bike Connections** not only details all of this, it shows the best roads for biking between the trail and major work sites, shopping centers, business parks and recreation sites. Click on trail access points for parking details. Click on bike shops to get all of their info. And use the built-in Google locational search to find the nearest ice cream or coffee shop — you're allowed...after biking all those miles!
